

Introduction

Dr. Asif Gill

Subject Coordinator & Lecturer

asif.gill@uts.edu.au

Workshop 1: Introduction to Software Development

Welcome !

Introduction

Ask the students....

Questions:

1. What is your name?
2. What is your experience with software development?
3. What do you do other than study (e.g. hobby, work)?

Administration:

1. Bring your own device (laptop)
2. Group work ethics (e.g. being responsible, respectful)
3. Mobile use
4. Break

10 Mins

Topics

- Subject overview
- Professional software development
- Model driven software development
- Software development process
- Software development roles
- Agile software development
- Software development project
- Assessments

Q&A: Subject overview

10 Mins

- Learning journey
- Preparation
- Subject objectives
- Teaching and learning strategies
- Key topics and workshops
- Assessments
- Recommended book
- Teaching team

See subject overview video
See subject outline

Activity: Professional software development

5 Mins

Individual Software Development

Developed by individuals

Professional Software Development

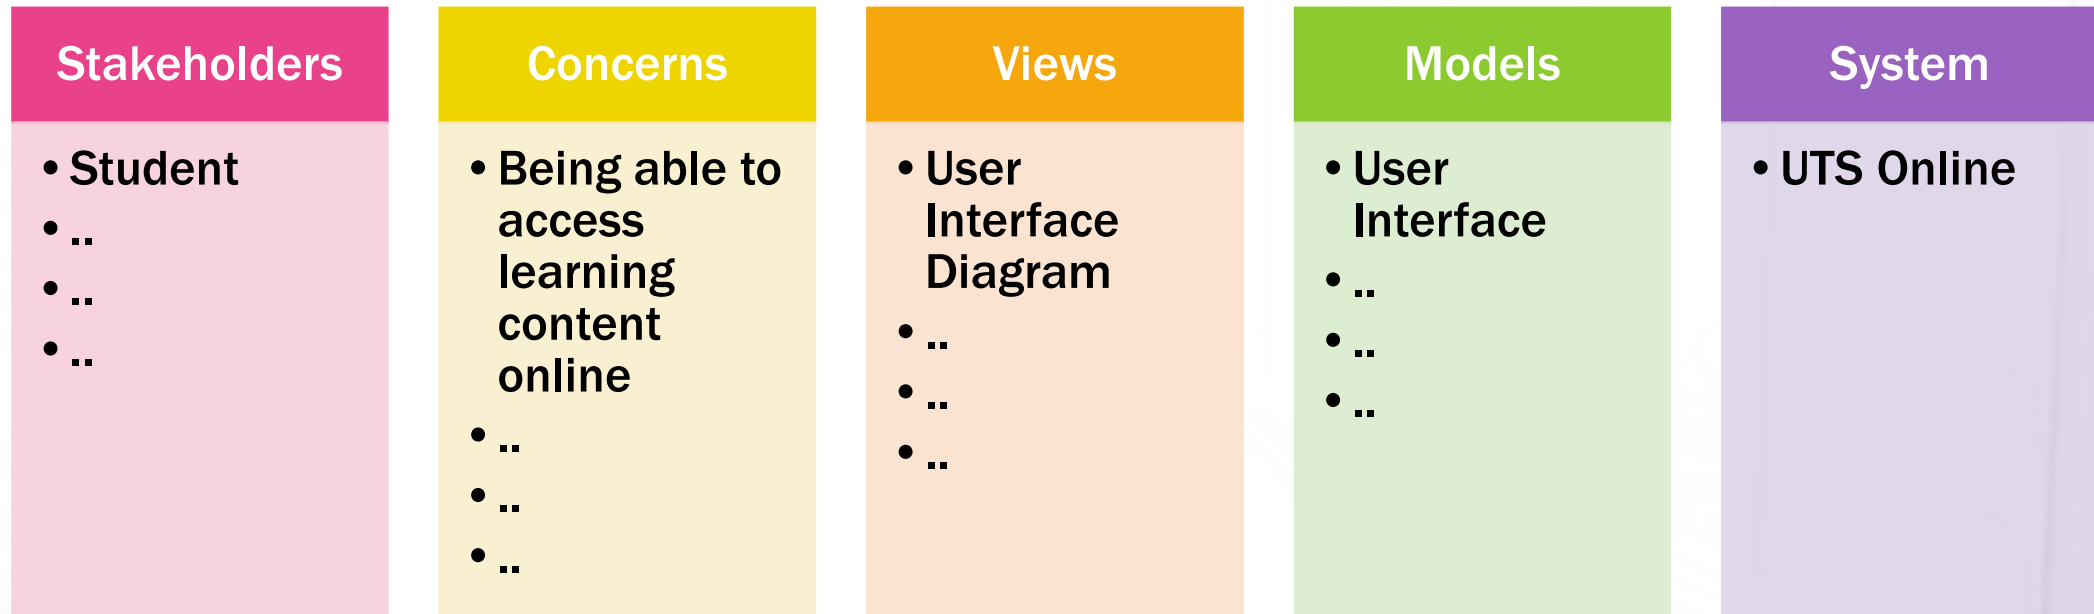

Developed by team

Activity: Model driven software development

10 Mins

Activity: Software development process

20 Mins

#	Stages	Artefacts	Roles
	Planning	Project Plan	Project Manager

Activity: Agile software development process

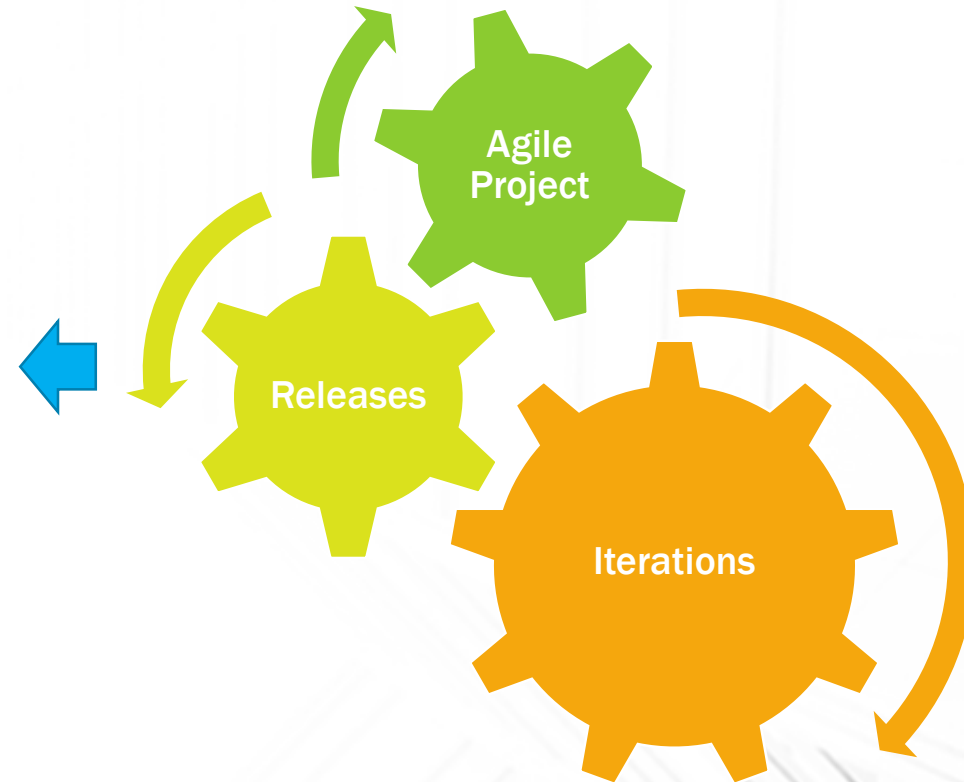

20 Mins

Q&A: Agile software development

Agile
software
development
methods -
videos

Scrum

XP

Lean

Kanban

5 Mins

Source: See UTS Online for the video links

Agile Methods: An evaluation of the degree of agility in six agile methods and its applicability for method engineering by A Qumer, B Henderson-Sellers. Information and software technology 50 (4), 280-295.

Q&A: Software development project

5 Mins

How to balance the project scope, time, cost and quality aspects of a software project?

Trade-offs?

Stakeholder preferences?

Q&A: Assessments

10 Mins

- **Software development Project**
 - *Assessment Item 1 (30%) Due 11.55pm Friday 19 April 2019*
 - Project – Analysis, Planning, Architecture & Design; individual logbook
 - **Compulsory Showcase - see subject outline**
 - *Assessment Item 2 (50%) Due 11.55pm Friday 31 May 2019*
 - Project – Implementation & Testing; individual logbook
 - **Compulsory Showcase - see subject outline**
- **Quizzes**
 - *Assessment Item 3 (20%)*
 - Pre-workshop individual online quizzes (5) – **see subject outline**
 - Quiz 0 (mockup/ demo quiz) will not contribute to your grade
 - No makeup quizzes are allowed
- **No Final Exam**

**Discuss Assignment 1
as a part of the overall
software development
project**

Conclusion

- Individual vs professional software development
- Models and model driven software development
- Agile vs traditional software development
- Software development project
- Assessments: Assignment 1
- Next Week Workshop: Analysis & Planning
